| In Acts 20:6-7, confirmation for the DSS Zadokite Calendar is found in-that Sha'ul left after the week of Matsa on the 22 <sup>nd</sup> & arrived after 5-days on the 26 <sup>th</sup> . They always began their Omer count on the 26 <sup>th</sup> —which is the first day after the weekly Sabbath following the <u>entire</u> Festival of Matsa; The 1 <sup>st</sup> Century A.D. Temple Sadducees and Pharisees counted differently, as do Talmudic & Ka'arite Jews of today. We begin the 50 days ↓→ of 'Counting the Omer' leading to, not one but three consecutive Shavuots/Pentecosts: <b>New-Grain, New-Wine, New-Oil.</b> |        |                    |                                                                                                |         |       |                                                                                        |         |      |                                                                   |                       |                                                     |                                                                                |                     |                      |                                |                     |                     |                                        |                     |                     |                              | Sha'ul gathered Disciples on the first of the 7-Shabbaths leading ↓→ to Shavuoth. <sup>1</sup> The Book of Jubilees 32:27

The New Year begins in the Spring—not,  
in the Summer, and not in the Fall, and not in the Winter.

## Rosh ha'Shanah in the Spring

Ex 12:2 ***"This ḥodesh [this month in proximity to the spring equinox] shall be for you the beginning (rosh) of ḥodeshim [the 12 months in accord with the 12 constellations].***

***It shall be the first (rishon) month of the year (shanah) for you.***

Dt 16:1 ***"Guard the ḥodesh of Aḇīḇ [month of Spring] and perform the Pesách to YHWH your Elohim: for in the month of Aḇīḇ YHWH your Elohim brought you forth out of Egypt by night."***

***Again, this is a constellation month based upon the motion of the Sun as it moves north in the winter and south in the summer during the year. It enters a new constellation, marked as a 30-Day Month—12 months per year and 4-seasons—Spring, Summer, Autumn, and Winter.***

Later, Priests and Pharisees altered this. They adopted & adapted their Calendar from Babylon and Greece, either during the Maccabean or Herodian period. They began to call Yom Teruah "Rosh ha'Shanah" as they established a Civil year running from Fall to Fall and counting their years by it. However, according to their own Torah, the 1<sup>st</sup> Day of the 7<sup>th</sup> month is at the end of the Summer and is

called “Yom Teruah” — not Rosh ha’Shanah (Lev 23:24). They also began to start their day at night rather than in the morning. Throughout the Scriptures, however, there was a Morning-Day-Evening-Night sequence. (Arguments used to prove the Moon based Calendar by using a few Psalms passages will be refuted later in this paper. There, the proper translation and context is made clear concerning these passages: Ps 89:37; 136:9; 104:19; 81:3)

### What Do the Zadokite priesthood at Qumran & Essene (Assayin/Assayim) of the Book of Enoch Say?

**Enoch 72:1, 29-37** “The Book of the Courses of the luminaries of the heaven...which Uri’el the messenger...showed me...all their calculations exactly as they are, and how it is with regard to all the years of the world and to eternity, until the new creation is accomplished, which endures until eternity... 29 So the sun has returned and entered into the second **window** in the east, and returns orbital divisions for **thirty mornings**, rising and setting. 30 On that day, the night decreases in length. The night amounts to ten parts and the day to eight. 31 On that day, the sun rises from that **window**, sets in the west, returns to the east, and rises in the third **window** for **thirty-one** mornings before it sets in the western sky. 32 On that day, the night decreases and amounts to nine parts, the day to nine parts; **the night is equal to the day** and the year is exactly **three hundred sixty-four days**. 33 And the length of the day and of the night, and the shortness of the day and of the night arise; through the course of the Sun, they are separated. 34 So, it comes that its course becomes daily longer, and its course nightly shorter. 35 And this is the calculation and the course of the Sun, and his return as often as he returns sixty times and rises: the great luminary, which is named the Sun, forever and ever. 36 And that which rises is the great luminary, and is so named according to its appearance, as the Master commanded. 37 As he rises, so he sets and does not decrease, and does not rest, but runs day and night, and his light is seven times brighter than that of the Moon; but regarding size they are both equal.”

Note also, that in the books of Daniel and Revelation, the 360-Day year (*with 4 seasonal division days that are not part of that count*) is described as a “time and times and half a time” and “forty-two months” and 1260 days, which equals  $3\frac{1}{2}$  years = 42 months ÷ by 12 =  $3\frac{1}{2}$  years). 360 Days ÷ 12 Months = 30 Days per month.

### What Do the Zadokite priesthood at Qumran & Essene (Assayin/Assayim) Sages of the Book of Jubilees Say?

**Jubilees 2:8-10** And on the fourth day [Wednesday – Day 1 of the New Year] He created the sun and the moon and the stars, and set them in the firmament of the heavens, to give light upon all the earth, and to rule over the day and the night, and divide the light from the darkness. And God **appointed the sun** [not the moon] to be a great sign on the earth for Days and for Sabbaths and for Months and for Feasts and for Years and for Sabbaths of Years and for Jubilees and for all Seasons of the Years. 10. And it divides the light from the darkness [and] for prosperity, that all things may prosper which shoot and grow on the earth. These three kinds He made on the fourth day...

**Jubilees 6:30-34** And all the days of the commandment will be fifty-two weeks of days, and (these will make) the entire year complete. Thus, it is engraved and ordained on the heavenly tables. And there is no neglecting (this commandment) for a single-year or from year to year. And command you the children of Israel that they observe the years according to this reckoning—**three hundred and sixty-four days**, and (these) will constitute a complete year, and they will not disturb its time from its days and from its feasts; for everything will fall out in them according to their testimony, and they will not leave out any day nor disturb any feasts. But if they do neglect and do not observe them according to His commandment, then they will disturb all their seasons, and the years will be dislodged from this (order), and they will neglect their ordinances. And all the children of Israel will forget, and will not find the path of the years, and will forget the **New-Months** [chodesh = 30 days monthly renewal, not yareach = moon phases], and **Seasons**, and **Sabbaths**, and they will go wrong as to all the order of **the years**.

**Jubilees 6:35-38** For I know and from henceforth shall I declare it unto you, and it is not of my own devising; for the book (lies) written before me, and on the heavenly tables the division of days is ordained, lest they forget the feasts of the covenant and walk according to the feasts of the Gentiles after their error and after their ignorance. For there will be those who will assuredly make [yearly] **observations of the moon**—how (it) disturbs the seasons and comes in from year to year **ten days too soon** [12 moons = 355 days]. For this reason, the years will come upon them when they will disturb (the order) and make an abominable (day) the day of testimony, and an unclean day a feast day, and they will confound all the days, the holy with the unclean, and the unclean day with the holy; for they will go wrong as to the **Months** and **Sabbaths** and **Feasts** and **Jubilees**. For this reason, I command and testify to thee that you may testify to them; for after thy death thy children will disturb (them), so that they will not make the year three hundred and sixty-four days only, and for this reason they will go wrong as to the **New-Months** (chodesh, not yareach) and Seasons and **Sabbaths** and **Festivals**, and they will eat all kinds of blood with all kinds of flesh.

[NOTE: You cannot drain all blood out of dead flesh with its millions of veins and capillaries! To eat flesh is to eat-drink blood! It is unavoidable. The editor of Jubilees slipped and left that verse intact!]

## Enoch Chapter 82

*Enoch summarizes for his son in Chapter 82 what he has taught in chapters 72-81 concerning the motions of the sun, moon, and stars*

**Enoch 82:1-3** And now, my son Methuselah, all these things I am recounting to thee and writing down for thee! and I have revealed to thee everything, and given you books concerning all these: so, preserve, my son Methuselah, the books from thy father's hand, and (see) that thou deliver them to the generations of the world. I have given wisdom to thee and to thy children, [And thy children that shall be to thee], That they may give it to their children for generations, this wisdom (namely) that passes their thought. And those who understand it shall not sleep but shall listen with the ear that they may learn this wisdom, and it shall please those that eat thereof better than good food.

**Enoch 82:4-10** Blessed are all the righteous, blessed are all those who walk in the way of righteousness and sin not as the sinners, in the reckoning of all their days in which **the Sun** traverses the heaven, entering into and departing from **the portals (gates) for thirty days** with the heads of thousands of the order of the stars, together with **the four which are intercalated** which divide **the four portions of the year**, which lead them and enter with them **four days**. Owing to them, men shall be at fault and not reckon them in the whole reckoning of **the year**: yea, men shall be at fault and not recognize them accurately. For they belong to the reckoning of the year and are truly recorded (thereon) forever, one in the **first portal [gate]** and one **in the third**, and one **in the fourth** and one **in the sixth**, and the year is completed in **three hundred and sixty-four days**. And the account thereof is accurate and the recorded reckoning thereof exact; for the **Luminaries**, and **Months** and **Festivals**, and **Years** and **Days**, has Uriel shown and

**Enoch 82:10-14** And these are the names of those who lead them, who watch that they enter at their Times, in their Orders, in their Seasons, in their Months, in their periods of dominion [stewardship], and in their positions. Their **Four-Leaders** who divide the **four parts of the year** enter first; and after them **the Twelve-Leaders** of the orders who **divide the months**; and for the **three hundred and sixty** (days) there are heads over thousands who divide **the [360] days**; and for the **four intercalary days** there are the leaders which divide the **four parts of the year** [360 + 4 = 364]. And these heads over thousands are intercalated between leader and leader, each behind a station, but their leaders make the division. And these are the names of the leaders who divide **the four parts of the year** which are ordained: Mîlkî'êl, Hel'em mêlêk, and Mêl'êjal, and Nârêl. And the names of those who lead them: Adnâr'êl, and Ijâsûsa'êl, and 'Êlômê'êl—these three follow the leaders of the orders, and there is one that follows the three leaders of the orders which follow those leaders of stations that divide the four parts of the year.

**Enoch 82:18-20** The next leader after him is Hêl'emmêlêk, whom one names the shining sun, and all the days of his light are **ninety-one days [Summer]**. And these are the signs of (his) days on the earth: glowing heat and dryness, and the trees ripen their fruits and produce all their fruits ripe and ready, and the sheep pair and become pregnant, and all the fruits of the earth are gathered in, and everything that is in the fields, and the winepress: these things take place in the days of his dominion. These are the names, and the orders, and the leaders of those heads of thousands: Gîdâ'îjal, Kê'êl, and Hê'êl, and the name of the head of a thousand which is added to them, Asfâ'êl: and the days of his dominion are at an end [beginning **Autumn**].

49 x 50 = 2450 Years (Book of Jubilees)

| One Jubilee = 49 Years |   |   |   |   |   |   |                                            |   |    |    |    |    |    | From Creation to the Promised Land is 49 x 50 = 2450 Years (Book of Jubilees) |                                                                                                                                                                                          |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |    |   |

## Passages of Purported Moon Verses

*In verse 37, “IT” refers to the promise for **David’s Seed** and **his Throne** in verses 35-36. David’s Seed and Throne shall be established forever like the Moon, as it is a faithful witness preserved in the heavens. This verse does not claim that the Moon is forever faithful for telling time.*

The Moon (Yare'ach) and Stars (Kochavim) to rule by night: for His mercy endures forever. *Psalms 136:9*

*This verse says that the Moon and Stars rule the night as is also clear from [Genesis 1:14-18](#). Nothing here concerning the Moon governing our Calendar. Jubilees makes this abundantly clear.*

19 He created the Moon (Yare'ach) for Appointed-Times-Activities: the Sun knows it's going down. 20 You make Darkness, and it is Night: in it all the beasts of the forest do creep. 21 The young lions roar after their prey and seek their food from El. 22 The Sun arises, they gather themselves together, and lay themselves down in their dens. 23 Man goes forth unto his work and to his labour until Sundown (Erev—Evening—Dusk). [Psalm 104:19-23](#)

*This does not refer to the festivals (chagim) of YHWH as is claimed by some. The light of the Moon shining during the night signals night creatures to hunt for their food until Sunrise. These verses have nothing to do with scriptural Appointed-times for the gathering of His people, which we have shown are dependent upon the Sun, as shown with the passages quoted earlier.*

Blow a shofar in the Hodesh, in fullness (Keseh) for our festival (Chag). [Psalm 81:3](#)

Blow a shofar in/at the Hodesh (of the spring month, beginning a New Year);

*Blow it in/at the Fullness (Keseh / Nes—Banner-Signal) for our festival (Chag of Pesach).*

*The first day of the year establishes the schedule for the rest of the year. It is fixed with the starting day. All else falls into place from there.*

## Appointed-Times

There are, specifically, eight Appointed-Times (Mo'edim) for Assembly mentioned in Leviticus 23, including the Weekly Sabbath Day;<sup>xvii</sup> But, only three of the eight are also called, Chagim or Festivals; And those three are: (1) Pesach-Matsa, (2) Shavuot, and (3) Sukkot, or, (1) The Week of Passover-Unleavened Bread in the Spring, (2) The Day of Pentecost (Feast of Weeks)<sup>2</sup> toward the end of Spring and, (3) The Week of Sukkoth (Tabernacles) in the Autumn. The context in Psalm 81 indicates that “our-Chag” specifically refers to Israel’s deliverance and coming out of Egypt, which happened during the week of Passover-Unleavened Bread, and it is especially related to it as its memorial. The word *Keseh* is difficult here as one will find out by doing a word study. *Keseh* carries the idea of fullness or a covering as in clothing or of a canopy over a throne and comes from the verb, *Kasah* – to plump, or to cover. It is pointed out that there may be a copyists mistake, turning *Neseh* into *Keseh* (from a נ to a כ). The *Neseh* is related to *Nes* – a banner, flag, a sign, providing a signal, announcing the month of and/or the day of the Festival.

The word for Moon, *Yare'ach*, appears nowhere in Psalm 81 nor the term “full moon.” The Pharisees-Rabbis, followed by Christians, translate it as *full moon*. This lunar calendar, however, was forced upon Judaism by Antiochus Epiphanies, and then by the Pharisees following the Maccabean victory over him.

The word for Moon (Yare'ach) does not appear here in these verses. “New Moon” is not a correct translation of Hodesh (a solar-constellation month), although Bible translators translate it as such by erroneous tradition.

H2318 חָדָשׁ chadash (chaw-dash') v. 1. to be new. 2. (*causatively*) to rebuild. [a primitive root]  
KJV: renew, repair.

H2320 חֹדֶשׁ chodesh (cho'-desh) *n-m*. 1. ~~the new moon~~. 2. (*by implication*) a month. [from H2318]  
[It may refer to the 1<sup>st</sup> Day of each of the 4-Seasons also. My Comment.]

H3394 יָרֵאֵךְ yareach (yaw-ray'-ach) *n-m*. the moon.

---

<sup>2</sup> Left out by the redactors of Leviticus are two other Shavu'ot Feast Days that follow the Feast of Wheat: The Feast of Wine and The Feast of Oil. These three we consider as the center shaft of the Menorah – 3 in 1.

---

<sup>i</sup> **Dead Sea Scrolls Calendar** research continues by many. Two noteworthy models below. We added the priestly rotation, this year per number (2) below, as part of the Calendar as the days for both of these will align for a couple of years.

(1) Many have been intercalating when the Equinox falls on the 5<sup>th</sup> Day of the Week. But, another interesting model is that as long as the Spring-Equinox is in the same week (Sunday thru Sabbath), no intercalation is to be made. This keeps the Equinox within three days of the mid-week (4<sup>th</sup>) Day. When the Spring-Equinox moves to the next week after five or six years, then, intercalate a week. So, New Year's Day (on a 4<sup>th</sup> Day, Wednesday) is never more than three days from the actual Spring-Equinox. Thus, this maintains the Creation Week Model with the 7-Branded Temple Menorah.

(2) Some other research suggests/confirms that New Years' Day of new 294-years cycle (6 x 49) commenced on March 20, 2019. A Full-Moon and the Spring Equinox was noted to occur on the 4<sup>th</sup> Day of the Week (as in Creation Week). The 6-years rotation of the priests was completed and the Intercalation Week was inserted. The next 6-years rotation began and New Years Day was March 19, 2025. If true, this could update our understanding of the role of the Spring Equinox. See: [www.restored7scalendar.com](http://www.restored7scalendar.com).

<sup>ii</sup> **AC = After Creation.** See the arguments for [The Greek Septuagint \(LXX\) date](http://www.acacialand.com) against the Book of Jubilees, the Seder Olam & the Rabbinic Calendar dates, and the subsequent alteration of the Jewish Greek texts. Also, compare "Source Criticism" (Source Examination of the layers of the Biblical Text) of the Documentary Theory in the works of Dr. Richard Elliot Freedman, the Supplemental Hypothesis in the works of Dr. Tsemach Yoreh & the Cultic Hypothesis by Barry Page. There are other historical testimonies that the Tanach and other works were altered by the priestly class to insert animal sacrifices and animal consumption or that they were temporarily permitted because of "the hardness of their hearts but from the beginning were not so permitted" (meaning that they were temporarily permitted and ordered into a temporary symbolic system). This would indicate that an original Book of Jubilees was also redacted in the same way & (maybe?) also into Jubilee Cycles (7x7=49 year cycles for a total of 2450 years until the entry into Canaan.) See also the Clementine Homilies & Recognitions, the Nazoreans, Essenes, Nasareans, Ebionites, and Ossayim. See also the Qumran Calendar texts of the Dead Sea Scrolls (which include Enoch and Jubilees) as well as, The Gospel of the Holy Twelve, which I claim teaches the same calendar.

<sup>iii</sup> **Jubilees 6:23-28**

<sup>iv</sup> **The Dead Sea Scrolls** which promotes this Calendar, includes the Books of Enoch and Jubilees that were also found there; And additionally, these books are a part of the Canon of Scriptures of Ethiopian Jews and Christians. According to the Roman Historian Strabo, the Essene sect of the Jews who were sworn to poverty were also among the Nabateans at Petra, (part of Arabia at the time) in about 10 BC. From this poverty comes the term, *Ebionites*. Seemingly, they were followers of Melchi-Zedek or Zadokian-Levites; Nasareans. Strabo said, *"They worship the Sun and construct an altar on the top of a house, pouring out libations and burning frankincense upon it every day."* Being correctly interpreted, this probably meant that they honoured the preeminence of the Sun praying at its rising in the morning and at its going down in the evening. *These are reflected in the Books of Enoch and Jubilees, as will be recognizable below. In Jubilees, Adam and Enoch offered incense with no animal sacrifices. And according to testimony concerning the Nasareans and Ebionites, eating animals and offering them as sacrifices was a fraudulent practice and rewriting of the scriptures. Melchizedek brought forth food from the earth to Abram (bread and wine) rather than flesh. Jubilees 2:22; 3:26; 4:25. See for comparison, <http://www.acacialand.com/nabateans.html>*

<sup>v</sup> **This Essene-Israelite Sunlight-Based Schedule & Calendar** is not to be confused with other hybrid moon-phase-based calendars, such as the Islamic Lunar Calendar and Lunar-Solar Calendar of the Samaritan & Judean Governments. Nor is it to be confused with the hybrid Roman Mithraic-Christian SunDay Governments. The Communities of the Essene-Israelites followed the original Melchizedek-Levitical-Mosaic Torah-Law, not the later edited-law of the Samaritans & Judeans.

<sup>vi</sup> **In the Nazarean-Essene Sun-regulated yearly schedule**, there are 4-Seasons, 364 Days per year, equaling exactly 52 Weekly-Sabbath-Days (except, in intercalation years when a week is inserted). In this Sacred Calendar, there is a 7-Day Perpetual Creation Week: Sunday thru Saturday-Sabbath, which has never been proven to have changed its continuous sequence of Morning-Day-Evening-Night (Gen. 1:3–2:3). The Dawning light from the Sun begins the Morning and Day, and Sundown begins the Evening that ends after Dusk when the Stars come out, which begins the darkness of Night. Thus, we have the biblical phrases: 40 days and 40 nights, 3 days and 3 nights, and, tomorrow begins with Daylight. In the beginning of creation week, the Cosmic Spiritual-Light was created for the created ones on the Day-One (separated from the impenetrable Darkness or Abyss of the infinite unknowable One—Ayn Sof), but the Sun, Moon & Stars, were created on the 4<sup>th</sup> Day. And hence, the 4<sup>th</sup> Day of the Week (the 3<sup>rd</sup> or 4<sup>th</sup> Wednesday in March) starts the 364-Day-Count of each year. Therefore, Day-1 of the 364 Days, begins in the Spring of the Year—in relation to the Vernal Equinox (not the Equilux) (nor the Constellations of the Stars). (Gen 1:14-19; Jub 1:8-10) The last day of the year ends on the 3<sup>rd</sup> Day of the Week (Tuesday) every year. Each Seasonal Quarter begins on a Wednesday (Jub 6:19). All solar calendars fall behind about 1.25 days each year. This necessitates an intercalation and that is why in the U.S. we have a February 29<sup>th</sup> every 4-years. **See Note 1 above.** When the Spring Equinox falls on a Wednesday, we insert 7-days (thus making that year 371 days) and restart the 364-Day count on the following Wednesday. The 364-Day count is continuous until the intercalation week. And, this exception occurs every 5-6 years when an extra week must be inserted in order to keep the 4-seasons in-sync. The intercalation week makes one out of every 6-years to be 371 days and 53 Weekly Sabbaths Days. (Next note)

<sup>vii</sup> **Counting a 'Day & Night'** or 72-hour sequence, the resurrection was at 3pm of the Sabbath Day. For the Essenes, with their 364-Day fixed calendar, the 14<sup>th</sup> was always on a Tuesday. The Pharisees & Sadducees, by following the moon-cycle, observed on a different day each year. In 30 A.D., their 14<sup>th</sup> was on a Wednesday, and it was their preparation day for their Festival Sabbath Day—Not the weekly Sabbath Day claimed by Catholicism. Y'Shúa rose from the dead on the Weekly Shabbath, after 3Days & 3Nights—NOT on Sunday. On Sunday, he revealed himself, beginning with Miriam Magdalena, (maybe?) his wife.

viii **Y'Shúa's soul will be in the heart of the earth for 3Days-3Nights (after<sup>viii</sup> 3 Day-Nights; not on the 3<sup>rd</sup> Day)** The Book of Mark gives the original "after the third day" that was subsequently altered to "on" the third day, part of the scheme to change from 7<sup>th</sup> Day Sabbath observance to the Mithraic-Sunday observance. Mk 8:31; Mt 27:63; 12:40. The GHT is even clearer. It is also possible to interpret "on the third day" not as the exact timing of the event but as a reference to Hosea 6:2: *"He will revive us after two days; on the third day he will raise us up, that we may live in his presence."* LEB

ix **In the Essene Calendar, there are three consecutive Festivals of Shavuot/7-Weeks-49-Days/Pentecosts-50 Days:**

Back-to-Back: The Firstfruits Harvest & Rejoicing Ceremonies for The Firstfruits of Grain, Wine, and Oil (Joel 2:19; Neh 10:38). Whereas, there is only one, the Firstfruits of Grain, on the Judean-Rabbinic Calendar. Mysteriously, the dates in GHT did not match with the Book of Acts, or it seemed. This includes: The GHT's **90-day** period count unto the Ascension of Y'Shúa into Heaven, in **Mid-summer**, followed by **7-Days of Prayer**, and then the outpouring of the Spirit on **the 3<sup>rd</sup> Day**—these did not match-up with the details in the Book of Acts, until we discovered that the Shavuot/Pentecost that the GHT describes is the 2<sup>nd</sup> Shavuot/Pentecostal Festival of New Wine. And thus, the accusation in Acts 2:13 that the disciples were full of "new wine". The Writer or Redactor of the Book of Acts misinterpreted the time line.

**GHT 87:1.** THEN the same day, at evening, being **the first day of the Sabbath-week...**

[This was the 1<sup>st</sup> Day of the Week-Matsa 5; 19<sup>th</sup> Day of Hodesh 1 {Month 1}]

**GHT 88:1.** AND **after seven days again** [the 8<sup>th</sup> Day], his disciples were within the Upper Room... 6. This is now **the sixth time** that Y'Shúa showed himself to his disciples, after that he was risen from the dead. (This seems to complete an initial and distinct period of Y'Shúa's appearances to his disciples. His Resurrection was on the Weekly Sabbath Day. His 1<sup>st</sup> post-resurrection appearance was on the next day, being the 1<sup>st</sup> Day of the Week. This **6<sup>th</sup>** appearance occurred on the 8<sup>th</sup> Day — which, on the Essene Calendar, is also Firstfruits Barley Omer 1, the First Day of Counting the **3-Shavuots**—the 26<sup>th</sup> Day of the 1<sup>st</sup> Month. Thus the 90-Days Count begins the following day on the 27<sup>th</sup> of the 1<sup>st</sup> Month until the 24<sup>th</sup> Day of the 4<sup>th</sup> Month. The Ascension was the following day, which was the weekly Sabbath Day—the 42<sup>nd</sup> Day of the Counting to the Festival of New Wine. He was resurrected on a Sabbath Day, and he ascended on a Sabbath Day.

**GHT 89:1.** AFTER these things Y'Shúa showed himself again to the disciples at the sea of Tiberias...

**GHT 90:1.** AGAIN the twelve were gathered together in the circle of palm trees...

**GHT 91:1.** In that time [of a week] after Y'Shúa had risen from the dead, he tarried **ninety days** with Miriám his mother and Miriám Magdalena who anointed his body, and Miriám of Cleophas and the Twelve, and their fellows, instructing them and answering questions concerning the kingdom of Elohim.

**GHT 95:1.** AND Y'Shúa, after he had showed himself alive to his disciples after his resurrection [a one week period ending on the Firstfruits of Barley, the 26<sup>th</sup> of the 1<sup>st</sup> Month], and sojourned with them for **ninety days** [and nights afterward], teaching and speaking of the Kingdom and the things pertaining to the Kingdom of Elohim, and had finished all things that he had to do, led forth the Twelve with Miriám Magdalena and Yoseph his father and Miriám his mother, and the other holy women as far as Bethany to a mountain called Olivet, where he had appointed them.

**GHT 95:5.** ... But ye, tarry in Jerusalem, and abide in prayer, and **after seven days** ye shall receive power from on high...**6**...And it came to pass that while he blessed them, he was parted from them, and a cloud...received him out of their sight...

**GHT 95:8.** Then they returned to Jerusalem from the Mount of Olives, which is **a Sabbath day's journey from the city.**

[Begin the **90 Days** (& Nights) Count on 27<sup>th</sup> Day of Hodesh (Month) 1. This puts the Ascension on **the 91<sup>st</sup> Day**, a **Shabbat** on which they journeyed to the Mount of Olives; notice, it was: "**a Sabbath Day's journey from the city**")]

**GHT 95:9.** Now it was **midsummer** when Y'Shúa ascended into heaven...

**GHT 96:1.** AND as the disciples were gathered together [in prayer for seven days 95:5] in the upper room when [after] they [had] returned from the Mount...

**GHT 96:8.** AND when '**the third day**' had fully come, they were all with one accord in the one place... Except that this is not the 1<sup>st</sup> Shavuot of Wheat, but the 2<sup>nd</sup> Shavuot of New Wine. The 50<sup>th</sup> day falls on Day 1 of the Week. ('**the third day**' is possibly a euphemism for Shavuot -- see Ex. 19:11, 15, 16... Cf. with Acts 2:1. However, it is also the 3<sup>rd</sup> Day of the 5<sup>th</sup> Month, exactly! So, we have an incredible dual-witness that this is the Essene Calendar in use in the GHT!)

**GHT 96:13b.** And after six days many came together, and there were added six thousand (The next weekly Shabbat)

x **Jubilees 6:23-28**

xi **The Dead Sea Scrolls** which promotes this Calendar, includes the Books of Enoch and Jubilees that were also found there; And additionally, these books are a part of the Canon of Scriptures of Ethiopian Jews and Christians. According to the Roman Historian Strabo, the Essene sect of the Jews who were sworn to poverty were also among the Nabateans at Petra, (part of Arabia at the time) in about 10 BC. From this poverty comes the term, *Ebionites*. Seemingly, they were followers of Melchi-Zedek or Zadokian-Levites; Nasareans. Strabo said, *"They worship the Sun and construct an altar on the top of a house, pouring out libations and burning frankincense upon it every day."* Being correctly interpreted, this meant that they honoured the preeminence of the Sun praying at its rising in the morning and at its going down in the evening. *These are reflected in the Books of Enoch and Jubilees, as will be recognizable below. In Jubilees, Adam and Enoch offered incense with no animal sacrifices. And according to testimony concerning the Nasareans and Ebionites, eating animals and offering them as sacrifices was a fraudulent practice and rewriting of the scriptures. Jubilees 2:22; 3:26; 4:25.* See, <http://www.acacialand.com/nabateans.html>

xii **This Essene-Israelite Sunlight-Based Schedule & Calendar** is not to be confused with other hybrid moon-phase-based calendars, such as the Islamic Lunar Calendar and Lunar-Solar Calendar of the Samaritan & Judean Governments. Nor is it to be confused with the hybrid Roman Mithraic-Christian SunDay Governments. The Communities of the Essene-Israelites followed the original Melchizedek-Levitical-Mosaic Torah-Law, not the later edited-law of the Samaritans & Judeans.

---

**xiii In the Nazarean-Essene Sun-regulated yearly schedule,** there are 4-Seasons, 364 Days per year, equaling exactly 52 Weekly-Sabbath-Days (except, in intercalation years when a week is inserted). In this Sacred Calendar, there is a 7-Day Perpetual Creation Week: Sunday thru Saturday-Sabbath, which has never been proven to have changed its continuous sequence of Morning-Day-Evening-Night (Gen. 1:3–2:3). The Dawning light from the Sun begins the Morning and Day, and Sundown begins the Evening that ends after Dusk when the Stars come out, which begins the darkness of Night. Thus, we have the biblical phrases: 40 days and 40 nights, 3 days and 3 nights, and, tomorrow begins with Daylight. In the beginning of creation week, the Cosmic Spiritual-Light was created for the created ones on the Day-One (separated from the impenetrable Darkness or Abyss of the infinite unknowable One—Ayn Sof), but the Sun, Moon & Stars, were created on the 4<sup>th</sup> Day. And hence, the 4<sup>th</sup> Day of the Week (the 3<sup>rd</sup> or 4<sup>th</sup> Wednesday in March) starts the 364-Day-Count of each year. Therefore, Day-1 of the 364 Days, begins in the Spring of the Year—in relation to the Vernal Equinox (not the Equilux) (nor the Constellations of the Stars). (Gen 1:14-19; Jub 1:8-10) The last day of the year ends on the 3<sup>rd</sup> Day of the Week (Tuesday) every year. Each Seasonal Quarter begins on a Wednesday (Jub 6:19). All solar calendars fall behind about 1.25 days each year. This necessitates an intercalation and that is why in the U.S. we have a February 29<sup>th</sup> every 4-years. When the Spring Equinox falls on a Wednesday, we insert 7-days (thus making that year 371 days) and restart the 364-Day count on the following Wednesday. The 364-Day count is continuous until the intercalation week. And, this exception occurs every 5-6 years when an extra week must be inserted in order to keep the 4-seasons in-sync. The intercalation week makes one out of every 6-years to be 371 days and 53 Weekly Sabbaths Days. (Next note)

**xiv Counting a 'Day & Night'** or 72-hour sequence, the resurrection was at 3pm of the Sabbath Day. For the Essenes, with their 364-Day fixed calendar, the 14<sup>th</sup> was always on a Tuesday. The Pharisees & Sadducees, by following the moon-cycle, observed on a different day each year. In 30 A.D., their 14<sup>th</sup> was on a Wednesday, and it was their preparation day for their Festival Sabbath Day—Not the weekly Sabbath Day claimed by Catholicism. Y'Shúa rose from the dead on the Weekly Shabbath, after 3Days & 3Nights—NOT on Sunday. On Sunday, he revealed himself, beginning with Miriam Magdalena, his wife.

**xv The so-called, "Day out of Time"** is a day to supply the 365th Day by the Aztecs. This is not part of the Essene's Calendar. However, an additional festival was added on the 22nd of the 7th Month. This was added by Ya'aqob (Jubilees 32:27), aka, Shemini Atzeret & Simchat Torah; **Festivals fall on the same day of the week every year;**

**xvi During the Hasmonean Era,** it appears that Hanukah & Purim were not being observed by the Qumran Sect. There was no scroll of Esther nor Maccabees found there. The Zadokites, who left the Temple and **joined** the Essenes, already at Qumran, considered the Hasmonæans as usurpers.

**xvii The Samaritan-Judean Redactors** of the original book of Leviticus [or, Levitical Documents] left out the four days marking the beginning of each season, and, the redactor of Leviticus and Jubilees both, left out two of the three Shavuots {new-grain, new-wine, new-oil}. He only included the first one—new grain-wheat. We can consider these as three in one – a threefold cord.
